

# The Basil Gazette

FROM THE WE FIVE PRODUCTION HOUSE

5<sup>TH</sup> MAY, 2023 ~ FRIDAY

FOR PLATINUM MEMBERS

## A (k)night to remember!

Despite the continued absence of Soham, Basil unfortunately out of station, and the need for the other three to meet in shifts, the We Five found a way to maintain their strong connection and continue to support each other. Spandan, our Mathematics Wizard, hosted the We Five knights at his new dungeon in New Town on the occasion of his 20<sup>th</sup> birthday, yesterday. It was nothing short of an exciting day, with the charm of the We Five and the dungeon living up to the moment, as usual. David showed up in the morning with a divine cake in tribute to the Kolkata Knight Riders (KKR).

The cake's taste was a solid testimony to its appearance, and it set the tone for a memorable day. David had to leave early due to a prior health commitment, and just could not make it at the end for the evening - as he got too delayed at the hospital.

The Nobleman joined the party in the evening and stayed on till dinner. Through a variety of games - indoor third-grade cricket and online 'Among Us', the magical time spent flew faster than light years. The gaming session was joined by the Sorcerer's Apprentice - one of Spandan's students'. A late-evening walk down the area around the campus, rejuvenated the souls. Some marvellous home-cooked delicacies added the cherry on the cake.

We Five and the love story of the dungeon currently knows no bounds as their dominance shows no signs of decay. The magical dungeon has been witness to some of the greatest moments in sporting history - one of them notably being Neeraj Chopra winning the Olympic Gold medal for India after a decent interval of time. Yesterday was the scheduled Indian Premier League (IPL) Match between Kolkata Knight Riders (KKR) and Sunrisers Hyderabad (SRH). KKR have endured a rather lacklustre campaign but the convergence of the We Five at their happy hunting ground, helped the Knights get back on track with a resounding history, making it certainly a (k)night to remember.

However, we have a disappointing news for the reader here. The Hand Table Tennis (HTT) stadium in China upon review by the We Five Council for Hand Table Tennis (WFC-HTT) yesterday, was deemed unfit for playing on. This is because the surface has lost its bounce and the coefficient of friction is currently negative. The onus would be on China to be able to repair/ modify the surface in time for the HTT World Cup, lest it may be delayed/ postponed/ cancelled all together. In addition to this, the core-committee has decided to introduce an 'Among Us' tournament from the current year, as and when feasible.

The first ever Official Rulebook of the Hand Table Tennis sport has also been released, which takes the entire game one step forward in its aim of reaching the Olympics by 2040 AD, as per the We Five Expansion Scheme for World Domination.

The We Five proved that distance and conflicting schedules could not weaken the power of their friendship, as they found a way to meet and share their stories, even if only in small groups at a time.
